Base Adjustments

FTP or Fund Adjustments: Negative supplemental appropriations recommended in DU 4.42 are restored. This allows agencies to reconcile FY 2002 temporary reductions with permanent reductions to base spending authority for FY 2003. Permanent reductions are contained in DU 8.52.

Total	0.00	0	(905,000)	0	(33,000)	0	(938,000)

8.52 Base Reduction: Permanent reductions in agency base budgets are made to accommodate limited General Fund revenue for fiscal year 2003. Reductions will be accommodated through program consolidations, expenditure management, and other program changes that realign funding availability with program requirements. Eliminate 2.0 positions, a water resource planner, and an administrative assistant for a savings of \$91,800. Also shift half of a hydrologist position and \$33,800 from the General Fund to the water pollution control fund. Operating Expenditures are also reduced \$6,800. The water pollution control funds are a one-year replacement; they will need to be switched back to the General Fund in FY 2004.
